During the summer program, students can take two course of 0.5 credit each, a total of 1.0 credit. For most subjects, you can earn only one semester because of limitations on the number of classes available.

Signing up for the Upward Bound/Project PLUS Summer program is a serious commitment. Because space is limited, not all students who apply will be able to participate. Because of this space limitation, only students who are committed to completing the ENTIRE summer program should apply. The dates you will be expected to attend are from June 23 through July 24, 2008. No exceptions will be made.

In the space below the schedule on the back, please submit a one paragraph statement explaining why you need or want to participate in the Upward Bound/Project PLUS summer program. Also, please indicate if you have ANY outside commitments that could become an issue with your attendance (e.g. a job, sports, church trips, family vacations or obligations, etc.) and describe them below.
